YTD total was 420 tons, 191 tons over the same period last year. Through Feb 2020, recycling processing fees (at $108/ton) and hauling fees totaled $52,588 v. $51,528 in revenues. c. Update on Regional Drop-off Siting Process – The Chair gave an update on progress siting a regional drop-off, which is more aptly named a regional “expansion.” Transfer Station Siting Criteria was provided.
to a real estate agent. Hopefully, despite COVID-19 closures of real estate offices, we will make some progress in locating some prospective sites to bring to the E.Bd.

d. COVID-19 Response Update – TK reviewed some of the actions taken in response to the COVID-19 emergency declaration in Vermont. (1) Staff wrote a preparedness plan for continuity of service. Solid waste collection is designated by state and federal agencies as an "essential service." (2) We closed the office, with administrative staff and exempt staff working from home. (3) We restricted the Transfer Station and its programs to commercial businesses, licensed haulers and member town trucks only in order to reduce traffic and potential exposure to the virus, and to focus on managing the State's three priorities: MSW, Recyclables and Food Scraps. The only exception to this restriction is that residents may bring their food scraps to the Transfer Station, as required by statute, and may purchase backyard composting equipment. Unlike MSW and food scraps, the other special waste materials such as books, fluorescent lamps, batteries, reuse items, etc. can be stored for a few months. (4) We closed the HazWaste Center, although staff will remain available by appointment to help if a CEG or an individual has an emergency. (4) All District events have been cancelled. The composting classes scheduled for this spring/summer will be taught on-line. All HHW events have been cancelled. (5) We reduced yard staff hours from four weekdays to three weekdays, with the District paying for the difference in hours. The goal is to reduce exposure and to give staff a break while tonnages are low. We laid off one part-time staff, and we are alternating the two Sat. part-timers.

The Chair introduced the discussion of the proposed changes to Act 148 by the Leg. TK explained that language was introduced by ANR, with the support of Casella and others, to amend Act 148 by postponing the food scrap ban scheduled to take effect on 7/1/2020, and allowing haulers an exemption to offering curbside collection of mandated recyclables, allowing them to dispose of single stream recyclables in the trash through the end of the year. The expressed reasons were to address potential staffing shortages and potential exposure to haulers from touching recyclables, due to Covid-19. Hearings were held in the Senate Natural Resources & Energy Comm. and the House Comm. on Natural Resources, Fish & Wildlife. The E.Bd was not in support of these changes. BOS members expressed support for keeping the 7/1/2020 food ban in place, and continuing to require recyclables collection separate from the waste. Should the Leg. adopt these or similar changes, the District's Waste Management Ordinance (WMO) would not be in compliance. Mark Sperry, Esq. and TK drafted the language in the Policy Implementing the WMO, should the changes to Act 148 be adopted. The last sentence gives authority to the E.Bd to modify the language as needed, contingent upon changes the Leg. might make prior to the next BOS meeting. T.Wickland suggested adding a sentence that this is a State emergency policy change. S.Zwicky expressed opposition to any changes before the Leg. has taken action. P.O'Brien agreed.

Motion #8: T.Wickland moved to accept language changes to the Policy Implementing the Waste Management Ordinance, as Mark Sperry recommended. R.Orvis seconded the motion.

VOTE on Motion #8: Yes – 17 (Addison, Bridport, Bristol (2), Ferrisburgh (2), Leicester, Lincoln, Monkton, New Haven, Orwell, Panton, Shoreham, Starksboro, Vergennes (2), Weybridge). No – 2 (Ripton, Salisbury). Abstain – 0.

10. DISTRICT MANAGER REPORT –

a. Review of Supervisor Manuals – TK asked members to check their BOS manuals to see if they are up-to-date. If any questions, or you need a manual, email C.Bolduc at admin@acswwmd.org for assistance.

b. Act 148 Deadlines that take effect on 7/1/2020 – The 2020 Annual Implementation Report is due using 2019 data. The draft rewrite of the SWIP is also due by July 1. Public hearings on the SWIP do not have to be held until after ANR approves the draft SWIP.

11. DISTRICT PROGRAMS REPORT – DM reported that special wastes are still moving, albeit at a slower rate due to the closure to residents. Business loads of various special wastes are still allowed to come in, and at least three of our vendors have indicated that there is no problem with receiving materials. We had planned for three remote HHW collection events, but all three are now canceled for the time being. DM expressed concern that special HHW events may be difficult to accomplish in the fall given that all other planning entities in VT will be attempting to meet their SWIP requirements for HHW collection at the same time once things open back up. It may be necessary to forgo our events this year, which is allowed by

FB April 9, 2020
ANR. DM is preparing an RFP for a contractor to service the HazWaste Center, since ENPRO’s contract expires this summer and can’t be renewed. DM has been working to set up a stabilization appointment for a canister of Squibb ether at a residence. The ether is believed to be at least 60 years old, and meets the risk criteria for being potentially highly explosive. DM has been in communication with Chemcept to perform the stabilization, which is now delayed due to COVID-19. The VSWDMA approved a grant of $4,000 from the High Hazard Fund to pay for it. DM is still open to receiving CEG haz. waste by appointment only, but he is discouraging CEGs from disposing of haz. waste at this time unless it is an urgent need. DM is still organizing required staff trainings, and some trainers plan to conduct their day-long classes via on-line platforms like Zoom. DM is working on State ReTrac reporting for our facility, as well as drafting the District’s 2020 Annual Implementation Report and the SWIP rewrite.

– JRC reported that all ACSWMD in-person workshops, events and tours have been canceled through July 1. We’re providing our home compost workshops live over Zoom. Those who are unable to access Zoom may get in touch with us so that we can send them information in another format, such as links to composting info on our website or a hard copy of our updated "User's Guide to Backyard Composting" booklet. We’re actively revamping our News to ReUse newsletter to advertise our online workshops and reflect the current state of waste management. We’ve had to postpone and dial back various initiatives we were planning to introduce this summer including a Waste Warriors program and a dishware loan kit for events. Finally, we held a successful business event to explain their roles and responsibilities under Act 148, and to present them with their food scrap management options. Our outreach and technical support was requested by many businesses following the workshop, but ACSWMD staff cannot provide any in-person staff trainings, meetings or waste audits until further notice. We are going to support businesses during this time via email and phone calls.

12. OTHER BUSINESS – S.Zwicky asked when the District Transfer Station will accept Green Up Day waste now that VT Green Up has moved the event to May 30th. TK responded that the BOS policy is to accept Green Up Day waste for nine days after Green Up Day. Residents must take the bags to a town or hauler truck, as we are not accepting residential traffic at the Transfer Station until further notice.

13. ADJOURN –

Motion #9: B.Finger moved to adjourn the meeting. B.Munoff seconded the motion.

VOTE on Motion #9: Yes –19 (Addison, Bridport, Bristol (2), Ferrisburgh (2), Leicester, Lincoln, Monkton, New Haven, Orwell, Panton, Ripton, Salisbury, Shoreham, Starksboro, Vergennes (2), Weybridge). No – 0. Abstain – 0.

I agree that this is an original of the April 9, 2020 minutes that were considered and approved by the BOS at its meeting of ___________.
