5. MANAGER REPORT – TK informed the E.Bd that ANR has just released the 2021 Biennial Solid Waste Report to the Legislature, including the Landfill Availability Report mandated by Act 69. We will try to post the report with embedded links on our website to make it easier for folks to read it. Also, the anticipated ANR Infrastructure Grant RFP has just been issued and will become available to the District for upcoming projects. The grant is offering a 60% match for HHW infrastructure and a 40% match for recycling and food diversion. TK said the solid waste managers have asked that each planning entity be allowed an amount up to $100k max. The deadline to apply is March 1st. TK will bring to the Feb. E.Bd meeting some projects that could be included in the application.
   a. Personnel – Two Transfer Station staff are out on sick leave due to injuries that originated offsite until they are medically cleared for duty.
   c. 2020 SWIP approved by ANR – The State has approved the five-year 2021 SWIP.

6. FINANCIAL REPORTS –
   a. November 2020 Financial Report – PJ presented the November 2020 Financials showing a net loss of ($3,842) for the month. November tonnage of 1,838 was lower than the 2019 total of 1,974. Total YTD tonnage of 20,586 is 1,112 tons less than YTD tonnage in Nov. 2019. Nov. 2020 transactions continue to be high at 6,303, 1,320 more than the 4,983 in Nov. 2019. Despite the partial program shutdown in April – May 18 due to COVID-19, YTD Nov.2020 transactions of 56,953 exceeded the YTD Nov. 2019 total of 55,483.
   b. November 2020 Single Stream Recycling Report – In November, the Transfer Station received a total of 370 tons of single stream recyclables. The processing fee was lower at $92/ton, resulting in a YTD net loss of ($9,181) in single stream recycling.
   c. NBMVT CD account rollover, Interest Rates Declined – PJ informed the E.Bd that our Rate Stabilization Fund, with a Principal of $100k, is maturing at the end of January. It has been situated in a 17-month CD, and the $2,200 interest earned over the last 17 months will be deposited into the General Fund upon maturity. Although interest rates have dropped substantially, staff intends to roll over the $100k principal in the fund to an 18-month CD, as it will earn more interest there, although

the new interest rate has declined to .35%. DG mentioned that Monkton received a higher interest rate at Community Bank. PJ agreed to look into that.

d. Municipal Diversion Grant Applications – None received.
e. School Diversion Grant Applications – None received.

7. NEW BUSINESS –

a. COVID-19 Updates –
   - Addison County rise in cases: With an increased rate of infection, TK may have to reinstate a temporary shut-down of programs if the State enters into another shut-down, or if the Transfer Station has limited staff and must prioritize MSW, C&D and food scrap collection.
   - Vaccination Policy for Staff: The E.Bd favors a mandatory vaccination policy, with lawful exemptions via signed waivers, once the vaccine is available for essential workers.
   - Mutual Assistance from Board Members: Eric Murray and Randy Orvis have volunteered to assist in operating the Transfer Station if we are facing closure at any time. TK will check on liability insurance paperwork. TK will also check with the Middlebury PWD. If we can obtain mutual aid to operate the heavy equipment and load trailers, we might be able to have MBI pull trailers from the buildings rather than parking the trailers, which would help if CDL drivers are unavailable.

b. Proposed Policy for Annual Wage/Salary Adjustments for Employees at Top of the New Job Classification Scale – TK presented some options for compensation to employees who have reached the top of the new Job Classification Scale. In addition to the annual COLA, the E.Bd could consider bonuses, an annualized lump sum payment, additional training, or other non-payment incentives.

Motion #3: TW moved to authorize the DM to award a single lump sum payment in lieu of a step increase (up to an equivalent normal raise, based on performance) to employees who have reached the top of the adopted pay scale. RR seconded the motion.

VOTE: Yes – 7 (BM, DO, RR, AH, DG, CB, TW). No – 0. Abstain – 0.

c. New Haven Transfer Station Extension Site – Update on site permitting and proposed conceptual design –
   - The Solid Waste Infrastructure Grant RFP was issued by ANR (as mentioned in the Manager Report).
   - TK, Don Maglienti and Gary Hobbs met with Shane Mullen, PE (Weston & Sampson) to review the latest New Haven Site Plan. We made some changes to the Site Plan, which Shane will be incorporating in the next few weeks. Shane has also made progress on research into permitting. He will present the latest to the E.Bd on Feb. 9th.
