5. MANAGER REPORT –
a. Personnel – Staff meeting – At the final staff meeting of the year, we were able to complete the annual HazCom & Bloodborne Pathogens Training. COVID-19 – In light of recent increases in cases in Addison County, the District Office has returned to the mask mandate for staff and visitors. The Transfer Station requires masks within 6 feet of others. Addison County Sheriff’s Department – The Chair explained that after this E.Bd meeting agenda was posted, the ACSD asked for a change to the 2022 Enforcement Contract and Protocols that were already approved by the BOS in Nov. Because the overall contract total has not changed, TK was requesting that the E.Bd approve the hourly rate increase from $42/hr. to $44/hr., and deletion of the Incident Report language in the Protocols, as the ACSD no longer uses them. Instead, they attach a spreadsheet report to each monthly invoice. TK drafted those changes and asked the E.Bd for approval.
Motion #3: RO moved to approve the changes to the Addison County Sheriff’s Department 2022 Contract. AH seconded the motion.
VOTE: Yes – 7 (BM, DO, AH, DG, RO, CB, TW). No – 0. Abstain – 0.

b. Health & Safety – The food scrap toter was purchased and is in use. This will prevent injuries to staff. The Materials Management Infrastructure (MMI) Grant will pay for 40%, and the VLCT PACIF grant will pay $5,000. As part of that MMI Grant, the purchased recycling trailer is due to arrive in the second or third week of December. The Ford stakebody truck that was purchased as part of the MMI Grant will be delivered sometime in March 2022.

6. FINANCIAL REPORTS –
a. October 2021 Financial Report – PJ presented the October Financials showing a net gain of $88,179 in the General Fund. The YTD net gain is now $755,594. While the October MSW/C&D tonnage of 20,063 tons was slightly lower than Oct. 2020, YTD tonnage of 19,151 tons was 403 tons higher. Oct. transactions were down, but the 53,114 YTD transactions were 2,464 tons higher than in 2020. Both October and YTD tons of tires were a bit down. Food scraps jumped to 9.15 tons in Oct. 2021 v. 5.59 tons in Oct. 2020. 2021 YTD food scraps was 73.65 tons, a 29.65-ton increase.

b. October 2021 Single Stream Recycling Report – In October, the Transfer Station recycled 373.34 tons of single stream recyclables. The October 2021 YTD tonnage was 3,822.85. The processing fee remained at $18/ton, resulting in a YTD net gain of $196,406.27.

c. 2022 SWIP Grant Application submitted – DM submitted the application for the 2022 SWIP Grant to cover a portion of our HHW costs. The grant amount is about the same as last year.

d. Adopted 2022 Rates to Haulers, posted in newspaper and on website – TK reported that the 2022 Adopted Rates have been posted in the paper and on our website, and mailed to the licensed haulers on Dec. 1 along with their 2022 Commercial Hauler’s License applications.

f. School Diversion Grant Applications – None received.

7. NEW BUSINESS –
   a. Update on Purchase & Sale Agreement – New Haven – TK reported that the Purchase & Sale Agreement for the New Haven site was signed, and the deposit is in escrow. Seller is obligated to provide Due Diligence Documents by December 14, 2021, and to record a correction to the Lease Agreement with Norris Brothers Solar Development as Lot 5, and not the Church Lot. DM has met with Dave Nightingale, a HHW Center specialist, regarding a conceptual design for the HHW Center. TK is going to start contacting neighbors.

b. Quotes for Specialized Toter-Washing Equipment Purchase – DM reviewed the quotes obtained for the purchase of a food scrap toter washer. We asked for quotes from those companies that might be able to design and manufacture this specialized item. Three companies were contacted, and only two responded: Bin Wash Systems and Sparkling Bins. Staff recommends purchasing the Bin Wash Systems toter washer for $23,995. The MMI Grant would pay for 40%. The washer can connect to a hose or to tanks that the District could purchase. Because of manufacturing delays, this item would not arrive until 2022. It is not as critical to have this unit during the winter months. The Chair asked DM to obtain references for this product before the full BOS approves the purchase in January 2022.

c. ANR Inspection, Drafting Minor Cert. Amendment – TK reported that two inspectors from the Agency of Natural Resources visited the Transfer Station site on Dec. 2. They performed a site review and reviewed copies of paperwork. TK was in the process of drafting an application for a Minor Cert. Amendment to update the Closure Plan and to increase the maximum onsite tonnage of food scraps and perhaps tires. TK will also review the Facility Management Plan, and DM will review the HazWaste Center Plan, which are part of the Facility Certification.
