6. FINANCIAL REPORTS –
   a. July 2022 Financial Report – PJ presented the July Financials showing a $13,196 net gain in the General Fund (GF). The July MSW/C&D tonnage of 2,006 tons was 378 tons lower than July 2021, and YTD tonnage of 13,452 tons was 485 tons higher than YTD 2021. July 2022 transactions were 5,470, and YTD transactions of 32,521 were 3,329 lower than YTD 2021. As for tires, 42 tons of tires were disposed
of in July, and YTD 254 tons was 101 tons higher than YTD 2021. Food waste was not hauled in July. The
Transfer Station received 356 tons of Single Stream Recyclables in July, with 2,456 tons YTD.

b. July 2022 Single Stream Recycling Report – The Transfer Station delivered 364.19 tons to the
Materials Recovery Facility (MRF) in July. The July processing fee was $63/ton, up from $57/ton last
month. PJ added a line for “fuel surcharge fees” that are now being charged due to the high increase in
diesel prices, which totaled $2,190 YTD as of July. YTD net gain was $41,690.69.
c. Schedule for Draft 2023 Annual Budget – PJ stated that due to the current unstable economic situation
in the country, with record inflation, fuel costs and supply chain issues, staff needs the extra time to present the
draft 2023 Annual Budget at the October BOS meeting. This would give them more time to accurately assess
future costs of wages/salaries and benefits, fuel surcharges, supply costs, disposal costs, etc., and proposals to
increase rates if needed to cover rising expenses.
d. Municipal Diversion Grant Applications – None Received.
e. School Diversion Grant Applications – None Received.

7. DISTRICT MANAGER REPORT – TK gave the following report: Industry News: According to Waste
Today ranking of the haulers in No. America with the largest revenues in 2021, Casella Waste Mgmt. is now
No. 9, and Clean Harbors is No. 5. Blackrock Real Assets Fund has purchased Vanguard Renewables, including
the local anaerobic digester in Salisbury. The District will be hosting the Annual Compost Association of
Vermont (CAV) meeting here in October after their tour of the Vanguard A/D. CAV is also interested in touring
the food management area in our Transfer Station. Hauler Licensing: Cheryl Hamilton, long-time
administrator of the VT Waste Transporter Permit (WTP) system, is retiring. This should not delay the annual
District Commercial Hauler’s License renewals this Dec., as VT WTP renewals are in June. TK is not
recommending a hauler dinner this Dec., due to potential COVID-19 risk. District Manager Contract: TK’s
District Manager contract expires on 12/31/2022. The E.Bd will consider a new draft contract at its Oct.
meeting, along with a proposed revision to the District Manager Job Description to include new HHW training
language required by inspectors from the VT Agency of Natural Resources (ANR).

8. PROGRAMS REPORT – DM gave the following report: Textiles – Recent changes in textile
management at HOPE in Middlebury resulted in a gap in service in our region for recycling of non-marketable
textiles. DM communicated with HELPSY, a textile recycling company in the northeast region, to provide
service to our District. HELPSY is now picking up textiles from three area thrift stores, including HOPE, and is
scheduled to begin collection service at the District Transfer Station later this fall. The Transfer Station will
receive revenue of $0.07/lb. for all clean, dry textiles collected. Staff will begin marketing the new program
this fall, while stressing the donation guidelines. Outreach Efforts – Emily Johnston (EJ), Public Outreach
Coordinator, exhibited at Vergennes Day recently, providing information about recycling and organics
diversion, and selling kitchen collectors. EJ conducted a waste audit for Ilsley Library, which included an
assessment of both public-facing and staff-only areas. She’ll be following up with a presentation for Ilsley staff
in Oct. EJ and DM will be working with Middlebury Community TV to produce several informational videos
about the District’s waste reduction and recycling programs at the Transfer Station. The videos will be property
of the District but will also air on the MCTV Network’s channel and on their website. EJ partnered with the
City of Vergennes to create a flyer for the Crosby Farms Homeowner’s Assoc. This guide was handed out to all
HOA residents, and describes how to properly manage a compost pile to avoid rodents. EJ met with the student-
run Green Club in Vergennes to help them with their mission to promote waste reduction there. DM and EJ are
working with the Town of Middlebury and the VT Agency of Transportation to replace and improve the
District’s entrance sign, as well as the two business directional signs to the north and south of the Station. EJ
continues to maintain social media accounts for the District, and recently created a series of educational posters
for a HeadStart program in New Haven. EJ is working to conduct all business and school outreach required by
our Solid Waste Implementation Plan prior to the end of this calendar year. The District’s efforts at the recent
Addison County Fair and Field Days included staffing an educational booth for the week and assisting the Fair
with recycling collection. In addition to deploying and removing 96 District-owned recycling “X-frame” bins,
District staff collected 180 gals. of cooking oil and 1,200 lbs. of food scraps from food vendors at the Fair. The
District’s new AmeriCorps member, Gabriella Stevens, will begin her service term on Sept. 19. Staff has
several exciting projects in mind for Gabriella in the coming year.
